We, the group members listed below, affirm that this assignment represents entirely my own efforts. We confirm that:

☐ **We have acknowledged the use of another's ideas with accurate citations.**

☐ **If we used the words/code of another (e.g., author, instructor, information source), we have acknowledged this with quotation marks and proper citation.**

☐ **When paraphrasing the work of others, we used my own words (not merely using synonyms or rearranging the sentence structure). We have also appropriately cited the source(s) of the idea(s).**

☐ **We have checked my work against my notes to be sure we have correctly referenced all direct**
quotes or borrowed ideas.

☐ **All our acknowledgements on this form apply to any and all submitted work, including code.**

☐ **This is the first time we have submitted this assignment (in whole or in part) for academic credit in any year and/or at any institution.**

☐ **Any proofreading by another was limited to indicating areas of concern which we then corrected ourselves. All changes (including grammar correction) were entirely our own.**

☐ **This is the final version of our assignment and not a draft.**

☐ **We have kept and will continue to keep our work to ourselves and did not/will not share answers or content with others, unless otherwise directed by our instructor.**

☐ **We understand the consequences of violating the University of Toronto's academic integrity policies as outlined in the Code of Behaviour on Academic Matters.**

By signing this form, we agree that the statements above are true. Please print, sign, scan and submit this document as part of your submission. If I do not agree with the statements above, we will not submit my assignment and will consult the course instructor immediately.
